**Frameworks** : React js, Redux, Bootstrap

**Databases** : MySQL

**Tools** : Visual Studio Code, Git

**CourseWork** : Data Structure, Algorithms, DBMS, OOPS, Operating System, Computer Networks

## EXPERIENCE

### Cloud Infra Trainee

Celebal Technologies

May 2023 – July 2023

Jaipur, Rajasthan, India

- I engaged in the Celebal Technologies COE program, enriching my expertise in cloud infrastructure technologies.
- As a trainee, I'm poised for comprehensive training that will empower me to construct a robust foundation in networking, storage, and virtualization.
- My achievements include proficiently deploying virtual machines, setting up virtual networks, configuring load balancers, and mastering a spectrum of cutting-edge cloud technologies.
- Proactively identified and resolved technical issues, showcasing problem-solving and troubleshooting skills.

## PROJECTS

### Video Streaming Platform

React Js, Redux, HTML, CSS, Javascript, Git

[Source Code](#)

- Created a video streaming app with Firebase Authentication for secure user logins. Leveraged Firebase's real-time database for user data management and employed Redux for efficient state management.
- Designed and developed a clean and modern website using **React Js, Redux, HTML, CSS, and JavaScript**
- Optimized website for **speed and user experience**

### Expense tracker

React Js, JavaScript, CSS, HTML

[Source Code](#)

- Experience a React-based expense tracker for monitoring daily spending and income. Enjoy features like adding/removing transactions, sorting by date/category, and viewing summary data.
- Designed the web application using **React Js, Firebase, JavaScript, CSS**

### Chat App

Socket.IO, React, HTML, CSS, Javascript, Git

[Source Code](#)

- Developed a Chat app to facilitate real-time text communication between users. Messages are sent and received through servers for quick and secure exchanges.
- The webapp is made by using **Socket.IO, React Js, HTML/CSS**
